

About AMPLIFY

AMPLIFY envisions a human-centred digital future where artists and communities can create, share, and engage through ethical, inclusive, and open digital tools. In response to the rising dominance of commercial and authoritarian tech platforms, AMPLIFY empowers Europe's cultural and creative sectors to explore the potential of AI and immersive technologies without compromising democratic values or creative freedom. By developing and testing tools like AMPLIFY PORTABLE and AMPLIFY IMMERSIVE, the project fosters accessible, phygital experiences that reflect Europe's cultural diversity.

Our Vision

By integrating emerging technologies like Artificial Intelligence (AI) and Extended Reality (XR), AMPLIFY fosters human connections and promotes European values through:

Economic Sustainability

Accessible tools to lower costs.

Environmental Sustainability

Reduced travel and emissions.

Social and Cultural Sustainability

Inclusive and diverse experiences.

Our Tools

AMPLIFY PORTABLE

Play, learn, and perform music together from anywhere with AI-driven automatic audiovisual production.

AMPLIFY IMMERSIVE

Create and share live immersive experiences through hybrid physical-remote interactions.

Our Pilots

Renewing Tradition

SCOTLAND

This pilot revitalizes Gaelic traditions using remote teaching and collaborative tools to connect young learners and reduce social isolation while promoting sustainability.

cooperativa

PAULO
LAMEIRO
CRL

Music with Babies

PORTUGAL

This pilot transforms babies' emotions into musical interactions, fostering connections between families, musicians, and remote audiences while creating digital memories.

Next Stage

ITALY

This pilot redefines live performances with hybrid formats, enabling dynamic, interactive experiences between audiences and artists.

Gran Teatre del Liceu

Revealing Opera

BARCELONA

This pilot experiments with phygital formats to bring opera closer to diverse communities, fostering meaningful connections and dialogue.
